DIRECTORY 2009

This is a free DRAFT (and in places incomplete) version of the Global Lime Directory 2009, the first attempt to compile a complete listing of the world's lime plants.

We would greatly appreciate your assistance with the compilation of this directory.

Please send any corrections or ammendments to rob@propubs.com, (or Fax to +44 (0) 1372 743838) to arrive by 15 February 2009 for inclusion in this edition.

We are looking for the following information:

Company name

Plant name

Number of kiln lines

kiln type(s)

Production capacity

Upgrade/modernisation plans

Contact details (address, telephone, fax, email)

We would also appreciate information on the absence from the draft version of the directory of lime plants worldwide.

Contributors will be sent a free copy of the 2009 Global Lime Directory (saving Euro300), in mid-March 2009.

Thank you for your contribution to the Global Lime Directory 2009 .
