VIRTUAL EVENTS

Pro Global Media Ltd
Est. 1996

Pro Global Media aims to be the most-trusted,
most highly-regarded and market-leading provider
of information and events
to the building materials industries.

Dear readers,

Welcome to the *Pro Global Media Book 2024*, where you will find details of opportunities that our *Global Cement*, *Global Gypsum* and associated brands can offer you and your business. Our magazines, newsletters and directories are among the most widely-read publications in their respective areas of expertise, while our events are the leaders in their fields.

After disruption in 2020-2022, our events are now back to their 'normal' time lines, including Global Slag, Global CemFuels, Global FutureCem, Global Gypsum and Global Insulation. The first Global CemCCUS Conference will take place in May 2024, with an outstanding speaker programme. We have reduced our virtual seminar offering, but still have three strong events: the Virtual Global CemProducer Seminar will take place for the eighth time, while Global Concrete has its seventh outing.

We are able to offer a very strong B2B package to our customers in cement, gypsum, insulation, slag, concrete and related fields, helping you to get your message across to difficult-to-access potential customers. We hope that you will find what you are looking for in this *Pro Global Media Book 2024*. We look forward to hearing from you soon!

global cement MAGAZINE

The leading
audited cement
magazine

The world's most widely-read cement magazine

Global Cement Magazine is the world's most widely-read cement magazine, as well as being the top-rated cement magazine*. As well as its **audited** printed postal distribution, Global Cement Magazine uniquely has a very large **audited** digital circulation. In the popular PDF magazine version, all advertisements link through to advertiser websites, for increased reader response levels.

In 11 issues per year, Global Cement Magazine covers all aspects of the cement sector, from quarrying to despatch. Each issue has an in-house global cement industry trends article, a country or regional report, a cement plant site report, technical features, comment and all of the latest region-by-region cement industry news.

% rating**	Excellent	Good	Fair	Poor	Don't know
Global Cement Magazine	47	48	3	0	3
Magazine W	26	50	9	0	15
Magazine X	18	52	11	0	18
Magazine Z	12	34	11	1	42

The figures given below are for **circulation**: **Readership** is several times higher!

Audited circulation**:

1119

Average monthly **print** circulation of Global Cement Magazine, September 2022-June 2023

29,045

Average monthly **digital** circulation of Global Cement Magazine

30,164 total circulation

Global Cement Magazine's print and digital circulation is audited by the Audit Bureau of Circulation (ABC) - and its print circulation has been continuously audited by ABC since 2003. Please see www.GlobalCement.com for the latest ABC audited print and digital circulation certificates, or search 'Global Cement ABC certificate' online.

Global Cement Magazine readers are budget holders: 31% have a personal procurement budget of up to US\$10,000, 31% of up to US\$1m and 20% have a budget of over US\$1m.*

Global Cement Magazine readers are decision makers: 40% are involved in technical procurement decisions; 31% are involved in procurement decisions on a management basis.*

*Global Cement Reader Survey 2022/23. +Percentages that do not sum-up to 100% are due to rounding. **Circulation numbers from draft ABC certificate Sept 2022-June 2023 - Final audit pending.

global cement DIRECTORY 2024

The unique listing of all of the world's cement plants

The *Global Cement Directory* is the unique annual publication - in print and digital editions - that lists all integrated and cement grinding plants in the world, listing 2341 integrated facilities, 689 grinding plants and 320 cement-based boards plants over 304 pages.

The Global Cement Directory has been fully revised, to ensure the most up-to-date listing possible. You should ensure that YOUR company's advert is included in this essential cement industry resource. The pre-print beta digital version of the *Global Cement Directory* is distributed FREE in November 2023 to our 35,000+ registered contacts, ensuring a massive audience for your message. The final authoritative print and digital PDF versions are made available at the start of the following year.

The *Global Cement Directory* contains...

- The most complete listing of integrated and grinding cement plants available worldwide;
- The number of kilns at each plant and whether it uses wet, dry or other production processes;
- Up-to-date plant capacity information;
- Newly-updated telephone and fax numbers for plants (where available);
- News of planned upgrades, with estimated completion/commissioning dates (where known);
- Maps showing plant locations;
- Country reports for key countries and regions;
- Full analysis of integrated capacities by country and region;
- Selected national cement production and forecasts.

Advertising deadlines

Digital beta version

Advertising order deadline: 30 October annually
Advertisement material deadline: 5 November annually

Printed final version

Advertising order deadline: 5 February annually
Advertisement material deadline: 10 February annually

Precise Positioning - Advertise in sections that cover your current or future markets.

Table showing country and regional totals for cement production and capacity. The table is organized by country and region, with columns for production, capacity, and other relevant data.

Data - Capacity counts for countries / regions with integrated cement plants.

Huge sections for major markets - Including data for China.

GlobalCement.com

is the leading website for the
global cement industry, with

51,694

unique visits per month (May 2023).

(Google analytics).

GlobalCement.com offers visitors news, magazine articles, diary dates and links. It is the most popular cement industry website by visitor numbers and is the top Google search result for dozens of cement-related search terms. Further development of the site will take place through 2024, with additional news and content making GlobalCement.com the 'go to' destination on the internet. If you want to be seen online, then you need to have an advertising presence on GlobalCement.com!

Banner Advert - Prominent advertising opportunities at the top of every page.

News headlines - Advertise against the latest global cement industry news.

Slag-product and slag cement market trends
Beneficiation of slag and slag products
New applications for slag and slag products

The Global Slag Conference allows all attendees to maximise their profits from slag - both ferrous and non-ferrous - to keep themselves up-to-date with the industry 'state-of-the-art' and will provide extensive networking and business opportunities for both producers and users of slag and slag-based products.

Global Slag returned in 2023 after a four-year gap due to Covid, to its most popular and successful (and original) location - Düsseldorf. By popular vote at that event, the Global Slag Conference will take place in Dubai, with two exciting field trips already confirmed!

Logistical and sequestration challenges and solutions

Networking, networking, networking!

Including
short course

Including
Brevik CCS
plant visit

Global Cement's FutureCem Conference shows how producers can reduce CO₂ emissions from cement manufacture. Now, following on from successful virtual seminars, Global Cement's Global CemCCUS Conference will equip producers with the knowledge and contacts to enable them to successfully navigate the currently murky waters of the world of carbon capture, use, and/or sequestration, for those CO₂ emissions that otherwise cannot be avoided.

The 1st Global CemCCUS Conference will cover the array of technical options for carbon capture from the challenging flue gas produced by the cement industry, as well as looking at the legal and regulatory landscape, and future trends.

The event in Oslo features a confirmed field trip to Heidelberg Materials' Brevik CCS project - the first full carbon capture project in the world at a cement plant.

global gypsum DIRECTORY

The unique listing of all gypsum wallboard plants

The *Global Gypsum Directory* is a unique annual publication that lists all gypsum wallboard plants in the world. The 2024 edition is the largest so far, listing 431 facilities over 62 gypsum sector pages and 1097 insulation manufacturing plants in the global insulation section. The 2024 directory includes a section on natural gypsum sources worldwide, as well as a listing of gypsum fibreboard factories.

You should ensure that YOUR company's advert is included in this essential gypsum industry resource. The pre-print beta version of the *Global Gypsum Directory* is distributed FREE in November 2023 to our 9000+ contacts, ensuring a massive audience for your message. The final authoritative print and digital PDF versions are available in February each year.

Advertising deadlines

Digital beta version

Advertising order deadline: 30 October annually
Advertisement material deadline: 5 November annually

Printed final version

Advertising order deadline: 5 February annually
Advertisement material deadline: 10 February annually

The *Global Gypsum Directory* contains...

- The most complete listing of gypsum wallboard plants available worldwide;
- The number of lines and capacities at each plant;
- Telephone and fax numbers for plants (where available);
- News of planned upgrades, with estimated completion / commissioning dates (where known);
- Maps of plant locations;
- Country reports for key countries and regions.

global insulation DIRECTORY

The *Global Insulation Directory* is published in the same volume as the *Global Gypsum Directory*. It lists all of the world's insulation production facilities, as well as providing counts for different types of plant (mineral wool, glass wool, EPS, XPS, PU, etc...) worldwide. The 2024 edition has been fully updated and revised, listing 1097 plants worldwide.

**global
gypsum
.COM**

globalgypsum.com

is by far the leading website for the
global gypsum industry, with

6487

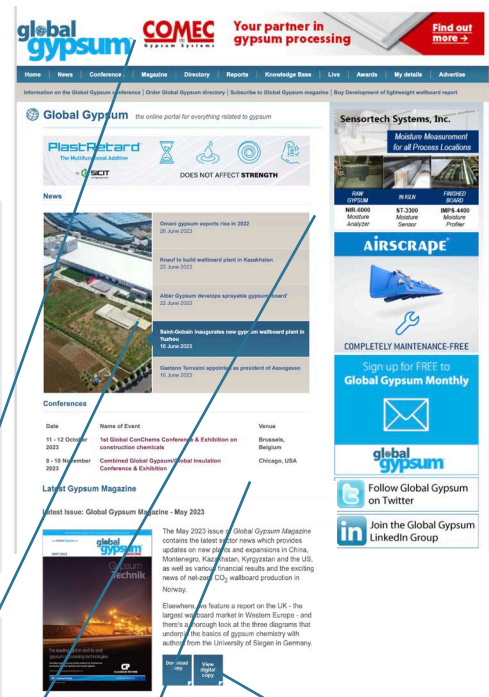

unique visits per month (in October 2022).

GlobalGypsum.com offers visitors news, magazine articles, diary dates and links. It has very high Google rankings for numerous gypsum-related search terms. Further development of the site will take place through 2024, with additional news and content, making *GlobalGypsum.com* the 'go to' destination for information in the gypsum wallboard sector. If this sector is your customer base, then you should have an advertising presence on *GlobalGypsum.com*!

Banner Advert - Prominent advertising opportunities at the top of every page.

News headlines - Advertise against the latest global gypsum and insulation industry news.

Block Adverts - See Page 32-33 for more information on booking YOUR advert!

global gypsum NOTIFICATION

The *Global Gypsum Notification* is an email sent to participants in the gypsum and insulation industries world-wide, to let them know that the latest issue is available for download. Each issue is sent to an average of

8952+

valid email addresses of gypsum and insulation decision makers. Advertising options include banners, blocks/boxes and skyscrapers. Please see page 32-33 for technical specifications and pricing.

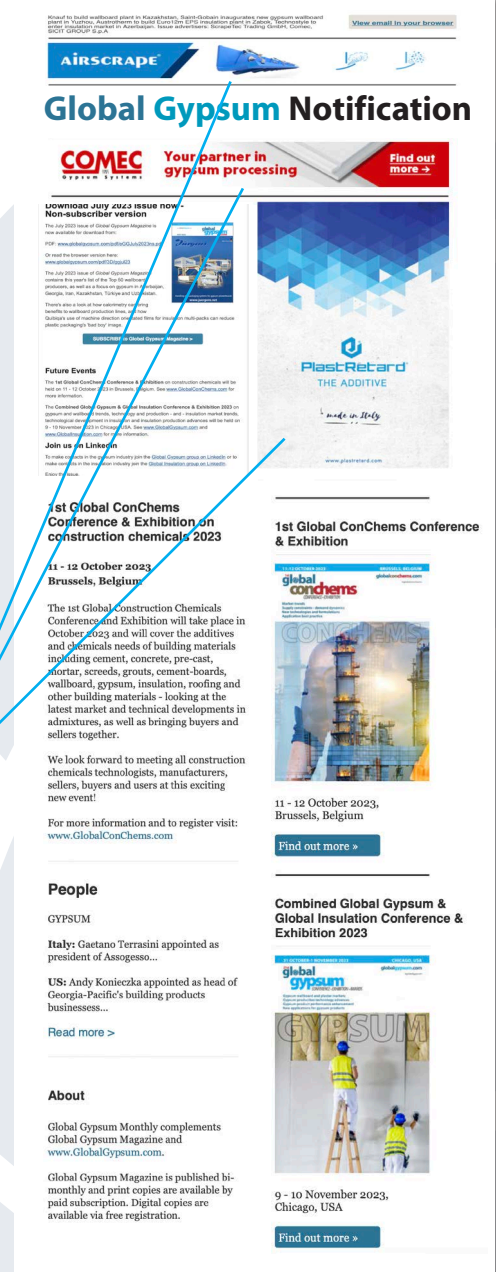

Banner Adverts - Your advert is seen by everyone who opens the email.

Gypsum News - Links to the latest news stories on *GlobalGypsum.com*.

Sponsored Editorial - Informative and relevant editorial may be sponsored.

Insulation News Headlines - Links to the latest news stories on *GlobalInsulation.com*.

Social Media Interaction - *Global Gypsum* is backed by a busy LinkedIn group and by its presence on Twitter and Facebook.

Global Gypsum Notification is sent all in those months that have an issue of *Global Gypsum Magazine*, around the 25th of the preceding month, depending on editorial and advertising deadlines.

See page 32-33 for specifications & pricing.

global gypsum™ SOCIAL MEDIA

Global Gypsum now offers a variety of ways to interact with its wide community of social media users. Please see page 27 for options and specifications.

Global Gypsum is rapidly building its presence on **X/Twitter** and the projected number of followers by 1 January 2025 is above 1000. The group includes participants in the global gypsum industry, as well as industry media, associations and other opinion formers.

Global Gypsum is rapidly building its presence on **Facebook**, and the projected number of followers by 1 January 2025 is above 1000. The group includes participants in the global gypsum industry, as well as industry media, associations and other opinion formers.

Global Gypsum has had one of the largest gypsum-focused groups on **LinkedIn** for many years, with an active membership, posting news and articles. The group includes many participants in the global gypsum industry and other interested parties.

Global Insulation has its own insulation-focused group on **LinkedIn**, including insulation producers, academics, equipment producers and service providers. The group includes up-to-date news and articles on gypsum markets and technologies.

Global Gypsum has spent over 25 years in building its **email** list to be the best in the business. The list is continuously refined and is augmented not only by self-subscribers, but also through annual campaigns to add new and fresh addresses.

HOSTED LANDING PAGES

Hosted landing pages with *GlobalCement* and *GlobalGypsum*

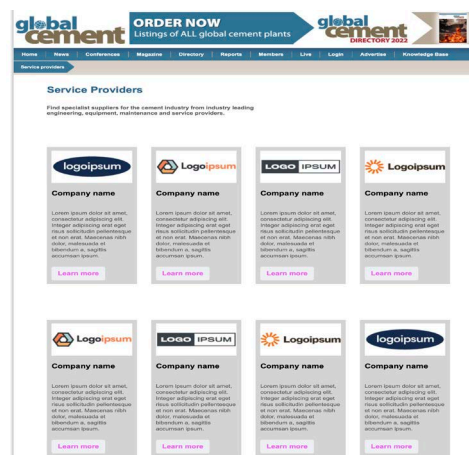

Now you can benefit from the huge reach of the Global Cement and Global Gypsum websites, by creating your own hosted landing page with us.

Each hosted landing page gives you the opportunity to showcase your company's offerings to the industry - through bringing together articles, videos, downloads and more - using our easy-to-use templates. If you need assistance in building your hosted landing page, our technical experts are available to help.

Hosted landing pages will be listed on the 'Industry Leaders' pages for cement and gypsum: Your own hosted landing page will benefit from a steady stream of interested contacts.

You will be able to directly download contact details of opted-in visitors, to provide your Business Development colleagues with qualified leads.

Pricing is based on a set-up fee and an annual maintenance fee, while multi-year discounts are also available.

Industry Leaders page (for example on GlobalCement.com) - Your company will be among an exclusive cohort...

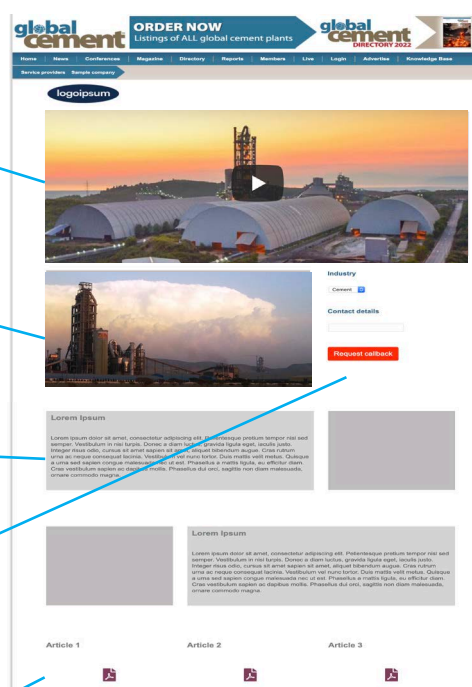

Opening video - Display your solutions with a dynamic video.

Photo gallery - A picture is worth a thousand words - Show us your offering.

About you - Tell the visitor what you can do for them.

Contact options - Where you can gain details of interested visitors.

Downloads - and much more - You can offer article and whitepaper downloads - and much more besides!

Your Hosted Landing Page is your shop-window, hosted on the Global Cement or Global Gypsum website.

For pricing and to book, contact: Paul Brown paul.brown@propubs.com

Social Media marketing with *GlobalCement* and *GlobalGypsum*

Pro Global Media has market-leading positions on social media for Global Cement, Global Gypsum, Global Insulation and Global Slag, for Twitter, Facebook, LinkedIn and email.

Customers can take advantage of our leading position on these social networks by marketing to the members of our communities by the use of sponsored messages.

Pro Global Media offers customers two approaches to Social Media marketing: **'Pick and Mix'** and **'Packages.'**

In the **Pick and Mix** option, the customer chooses the number of individually-priced types of Social Media interactions that they wish to employ (for example, three sponsored Tweets, a Facebook post, four LinkedIn posts and two emails).

In the **Packages** option, the customer chooses their preferred package, consisting of a set number of Tweets, Facebook posts, LinkedIn posts and emails:

Package	Standard	Silver	Premium	Gold	Platinum	Diamond
'Insertions'	1 of each	2 of each	3 of each	4 of each	5 of each	6 of each

Customers are able to specify the timing of each interaction with the target audience. Customers are responsible for supplying the relevant materials (text, links, graphics) for each type of social media interaction (see below).

E-blast (email mail-shot): specifications:

- Emails include a standard 'sent by...' footer
- Emails include a standard Privacy note and Unsubscribe footer
- All links should be live
- Graphics and links can be included

Facebook posts: specifications:

- 200 word maximum
- Must start with the words 'Sponsored post'
- All links should be live
- A graphic or a link can be included

LinkedIn posts: specifications:

- 200 word maximum
- Must start with the words 'Sponsored post'
- All links should be live
- A graphic and/or a link can be included

Tweets: specifications:

- 140 characters maximum
- Must start with the words 'Sponsored Tweet'
- All links should be live
- Tweet threads count as separate Tweets

White Papers

Have you got something useful and interesting to share with our audiences? Write a 'White Paper' extended article and we will send out notification to our database - sharing opted-in downloader details with you. **Contact Paul Brown for details.**

Send materials to: David Perilli david.perilli@propubs.com

What our exhibitors say

"I was very surprised at how well organised it was and how comfortable I felt exhibiting. But the best thing is that you managed to get the right customers - for us - to the conference."

Dipl. Ing. Berthold Bussieweke, Thorwesten Vent GmbH - Global CemFuels Conference

"Every conference is an improvement over the previous one and all have been well-organised and presented. Keep up the good work!"

Machinery Exhibitor - Global Insulation Conference

What our delegates say

"Having spent 31 years in the oil and gas, chemicals, petrochemicals and fertilizer businesses, I can testify that this event tops all those that I attended in almost every regard."

Saudi Arabian cement producer - Global CemFuels Conference

"Thank you so much for giving me the opportunity to meet so many people and to gain so much information!"

Delegate at the Global Slag Conference

"I have been to more than 100 conferences over the years and this is one of the best run and most beneficial, with a high density of industry decision makers."

Combustion expert attendee - Global Gypsum Conference delegate

"To become a competent leader in the alternative fuels sector, one must attend international seminars, especially Global CemFuels."

Italcementi delegate - Global CemFuels Conference

"Better than excellent!"

Cement producer - Global CemFuels Conference

Introduction to exhibiting with us

Pro Global Media organised its first event in 1999 and we have aimed to perfect our exhibition offering ever since. Every event is analysed to find out what delegates and exhibitors liked most, so that we can optimise future events.

Critical to the success of the events are our focused topics: Each event is the leader in its field and they are strongly supported by industry associations.

Exhibitors are at the heart of our events: We invite you to come and exhibit at some of the most cost-effective business-to-business exhibitions in the world!

Standard Booth Pricing:

Booth €5495
Space-only €4795

What's included in your stand

Our standard exhibition booths include the following:

- One free, full delegate registration, including access to all social events;
- Size: 3m (9'9") wide x 2m (6'6") deep - White melamine walls, 2.5m (8'2") high;
- Fascia board to display your company name;
- Brochure display shelves, information desk, table and two chairs;
- Power socket, halogen spotlights.

All-inclusive packages are available:

Booth + Delegates + Sponsorship + Online and Print Advertising. **Contact us for options.**

Stand shown is a double stand - 6m x 2m

Non-standard material

If your advertising material does not coincide with any of these standard sizes and formats, please advise format and we will give you a quotation. Our magazines also feature a classified section, with costs as shown left. For other sizes please contact us (see below left).

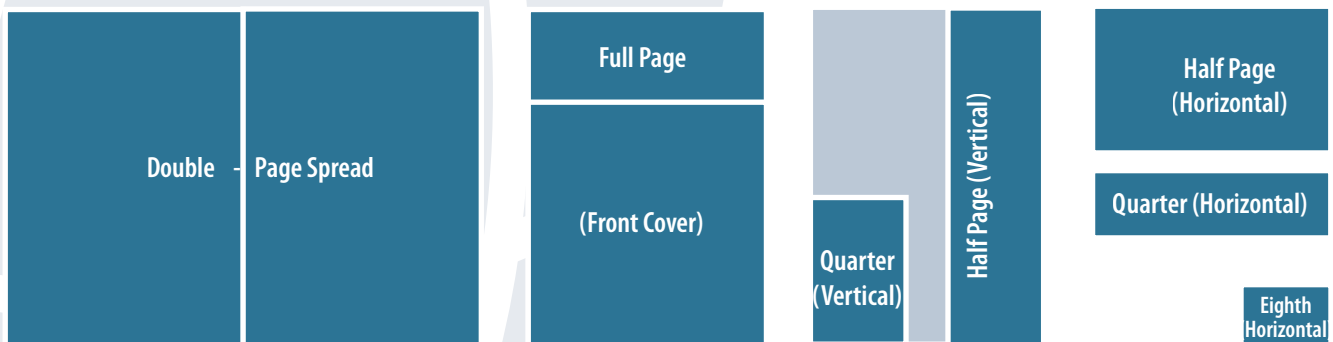

Mechanical data

All our magazines are computer-to-plate produced in DIN A4 format. Advertisement material should be supplied in PDF format, in CMYK colour format. When producing your PDF, ensure that all fonts are embedded, and specify the highest-quality JPG compression for all pictures.

PDF advertisements should be sent by email to production@propubs.com.

Ready-printed inserts must be supplied uncut and unfolded. Insert costs subject to sight of copy.
